ACCOMPLISHMENT REPORT

September 16-24, 2026

The undersigned undertook the following activities with corresponding outputs:

DUTIES AND RESPONSIBILITIES (THIS MUST BE CONSISTENT WITH THE APPROVED AND SUBMITTED TERMS OF REFERENCE)	DELIVERABLES: (ACTUAL DELIVERABLES AND ACCOMPLISHMENTS)
1. Collaborate with the Lead Project Development Officer to ensure proper planning, implementation, deployment, and monitoring of eLGU initiatives in the region; 2. Prepare project documentation and requirements (i.e. fund download documentation, project implementation/operation reports, data reports and updates, procurement projects, human resource, etc.) for submission to the Central Office PMT for consolidation and processing; 3. Assist in the onboarding process in coordination with the Central Office PMT and assigned systems analyst(s) in the assigned region and/or province(s); 4. Contribute to partnership building initiatives by attending to coordination requirements of client LGUs, partner agencies, and other stakeholders; 5. Act as data manager to monitor and manage team files/documents in relation to: a. Compliance and submissions of LGU document requirements (i.e. LOIs, MOAs, and other document requirements) b. Fund requirements and utilization c. Compliance to survey forms d. Data reports on accomplishments, software utilization, etc. 6. Assist in the strategic planning, program enhancement, and preparation of work and financial plan of the Region; 7. Prepare correspondence, memoranda, reports, and other required documents; 8. Maintain the confidentiality of highly sensitive information; 9. Familiarization with legal documentation relevant to the project (i.e. directives such as RA 11032, Joint Memorandum Circulars, etc.); Perform other tasks directly related to the project	Procurement Documentation, Inspection, and Item Release • Assisted in the preparation, organization, and completion of procurement-related documents for three procurement activities, including the procurement of computer equipment and other ICT-related items for the office. Ensured that the required documents were properly prepared, compiled, reviewed, and organized in accordance with the prescribed procurement process. • Managed and monitored the documentary requirements of the procurement activities from the preparation of supporting documents through the completion of requirements for item release. Coordinated the necessary documents and ensured that the records were complete and properly filed for reference and documentation. • Completed and consolidated the required documentary requirements for the DigiGOV procurement activities and submitted the finalized documents to the Administrative and Finance Division (AFD) for compliance, review, and proper records management. Ensured that the supporting documents were complete, properly organized, and ready for the required processing. • Presented the Regional Monitoring System and demonstrated its key functionalities, including the automated DTR generation and mobile-friendly features designed to provide personnel with easier access and more efficient use of the system. Discussed how the platform can support personnel in monitoring, reporting, and daily administrative requirements, including potential benefits for Human Resource (HR) processes. • Assisted in the inspection and assessment of Free Wi-Fi for All sites across different locations by conducting site visits, documenting the status of each beneficiary

	site, and performing connectivity tests for individual blocks or access points. Verified whether the installed facilities were operational and documented identified issues and site conditions for monitoring and appropriate follow-up. • Conducted ICT Skills Training on "Navigating Google Workspace for Barangay Workplace", providing participants with practical guidance on using Google Workspace tools for communication, document management, collaboration, and digital record-keeping. Assisted in addressing concerns related to the barangay QR code platform, explored alternative solutions for identified issues, and discussed practical methods for maintaining and managing citizen responses and requests to support more organized and responsive barangay services.
